APPLICATIONS

- Waste processing sites
- Recycling plants
- Ports & shipping
- Anaerobic digestion
- Animal-related practices
- Manufacturing
- Agriculture
- Food-related industries
- Remediation

Technical Specification:

odr is provided as a liquid concentrate, it is then added to potable water and applied using fogging equipment.

Shelf life: up to 12 months

Storage: Store in cool, dry conditions (between 5-30°C)

Packaging: odr is available in a 25kg, 200kg drum or a 1000kg IBC container

Air Spectrum operates to the highest standards and is accredited by a number of professional bodies. These include ISO 9001 quality standards accreditation as well as international environmental standard ISO 14001 accreditation.

odr is ASE's range of organic, non-toxic, food grade odour neutralisers using bio-degradable essential oils collected from sustainable resources. By working in 5 ways, odr odour neutraliser offers comprehensive and highly effective odour neutralisation which actually breaks down and removes odours from the air, rather than masking them, or hiding them with surfactant technology.

When used in Air Spectrum's odour control systems, the appropriate odr from the range is efficiently atomised to produce a very fine mist. The mist interacts with the odour particles for a sufficient time to neutralise them. Having absorbed the odorous components, odr breaks down the molecular structure to form harmless, nonvolatile salts that degrade naturally.

The non-toxic and food-grade nature of odr allows it to be used both in outdoor environments and within buildings. It is safe for use around humans and animals.

Strengths

odr is available in a variety of strengths to suit each application. The range includes odr 1 - odr 7, 'odr 7' being the strongest and to be used with the most potent odours and extreme applications.

Fragrances

Cherry	Citrus	Natural (Un-fragranced option)
Cotton Fresh	Strawberry	Strengths 6/7 are only available
Festive Forest	Peppermint	in 'natural' fragrance
Eucalyptus	Green Grass
